History of **AYURVEDA**

There are four Vedas, which are **Rigveda, Yajurveda, Samaveda and Atharvaveda**. The Vedas date back to about five thousand years. They preach the philosophy of life. The Atharvaveda contains the principles of healing on which ayurved is based. '**Ayur**' means 'life' in Sanskrit. ayurved is the most ancient science of healing which enhances longevity. It has influenced many of the older traditional methods of healing including Tibetan, Chinese and Greek medicine. Hence, ayurved is considered by many as the '**mother of healing.**'

Aryavarta, the native land of Aryans, covers a large area surrounding the Himalayas and is believed to be the place where the Rishis and Munis lived. At present it covers areas in countries like Nepal, India, Pakistan, Bhutan and Tibet. The civilizations of these countries are deeply influenced by the unique intellectual contributions of these Rishis and Munis.

The practical tenets of Ayurveda are divided into eight sections or branches. These sections include the following:

Internal medicine & therapeutics (Healing and detoxifying measures)

Kaya Chikitsa

Surgery (Extraction of foreign bodies/ things that cause discomfort to the body and the mind)

Shalya Chikitsa

ENT, Ophthalmology (Treatment of eyes, ears, nose, throat and head)

Shalakya (Urdhvanga) Chikitsa

Paediatrics, Gynaecology-Obstetrics (pregnant ladies & babies)

Bala (Kaumar-Bhritya) Chikitsa

Gerontology (Care of the elderly and Rejuvenation therapy)

Rasayana (Jara) Chikitsa

Sexology (acquiring virile strength) (Aphrodisiacs)

Vajikarana (Vrishya Chikitsa)

Spiritual therapy, Psychiatry (Psychiatry Medicine)

Bhoot Vidya (Graha Chikitsa)

Toxicology (antidotes to poisons)

Visha Chikitsa (Agad tantra)

Ayurved is a complete or holistic system that integrates the mind, body and spirit. For a few centuries, the tradition of ayurved was dimmed due to the natural and human calamities and also by the invasion of foreign cultures into India. The sacred texts were either destroyed or stolen. However there were many 'Vaidyas' or doctors in India who managed to preserve some of the knowledge available in these Holy Scriptures. Divine plants that sustain long life and good health are now being rediscovered. Many renowned families of Vaidyas, who are specialized in certain branches of ayurved, have started functioning again in India. Today there is a revival of the ancient culture and traditions inherent to ayurved, which is a true gift of the ancient civilization to the modern world.

About

DEV BHOOMI MEDICAL COLLEGE OF AYURVEDA & HOSPITAL

The Dev Bhoomi Medical College of Ayurveda and Hospital at Dev Bhoomi Group of Institutions is known for its expertise in improvement and brilliance in teaching. The foundation of DBMCAH in 2017, brought the evolution to the study of Ayurveda with experienced and skilled faculty with a balanced curriculum and from the year 2017 till date the college has been growing and evolving by imparting quality and advance education. Dev Bhoomi Medical College of Ayurveda and Hospital focuses on bringing collaboration between modern tools and technology and the traditional wisdom of Ayurveda. Along with this, it focuses on preserving the treatment of illness and diseases and the health of people. DBMCAH pivots to offer brilliant and traditional Ayurvedic Medical education by highly skilled and dedicated teaching faculties. We also focus on producing the leading Ayurveda Physicians and Scientists of the future and unraveling ancient knowledge through research to empower the entire Ayurveda fraternity.

The courses taught at DBMCAH have a well-designed curriculum with extensive practical training and balanced theoretical knowledge to train students to become professionals. The courses have a wide range of subjects of Traditional Ayurveda and Modern Medical Systems. Along with providing students a good educational pattern, well-equipped laboratories, an on - campus herbal garden, hospital facilities, pharmacies, clinics, dedicated faculty, and an approach to develop students are also provided.

About

AYURVEDA UNIVERSITY

Uttarakhand Ayurved University was established by the Government of Uttarakhand vide the Uttarakhand Ayurved University Act, 2009 to ensure, effective and systematic instruction, teaching, training, research and development in ayurveda.

After the creation of Uttarakhand State from Uttar Pradesh various efforts have been made by the state government to bring socio-economic change in this backward state with difficult geographical conditions. Despite its economic backwardness state is enriched with its vivid flora and fauna and is well-known specifically for vast potential of high altitude medicinal plants and herbs. The economic and scientific usage of such diversified resources may be a primary source of overall economic viability & sustainable growth culminating into radical economic growth of local people. With this view, state government has already taken various steps in this direction and the establishment of first Ayurved University in the state may be certainly seen as a giant step in internationally acclaimed field of ayurved.

The University will seek not merely to turn out men as Doctors, Scientists, Merchants, and Theologians but also as men of high character, probity and honor, whose conduct through life will show that they bear the hallmark of a great University

19 Years

of Excellence

CLOSER LOOK AT DBUU

The transformation of erstwhile Dev Bhoomi Group of Institutions to Dev Bhoomi Uttarakhand University brings with it a proud legacy spanning close to two decades. The University is built around its core values based on academic excellence, diversity and mutual respect, shared governance, social consciousness and environmental sustainability.

Dev Bhoomi Uttarakhand University stands tall on the edifice of higher education and has ushered an array of opportunities for the youth. Spread over an area of 42 acres, in lush green environs, the University offers plethora of programmes in its 10 constituent schools. With a keen eye on promoting impactful research, the University and its highly qualified faculty is in process of branding research flagship areas. Stress is being laid on experiential and project based learning, blended mode of pedagogy, academic audits, inter-disciplinary research, value added courses and entrepreneurship.

Dev Bhoomi Uttarakhand University has set the momentum to adopt NEP-2020 in a phased manner. Working towards realization of goals of quality enhancement and sustenance, developing systems for consistent and catalytic improvement shall remain the focus of Dev Bhoomi Uttarakhand University.

NCISM

“DBUU has found this unique opportunity to give an overhaul to outdated teaching-learning practices and establish a radical new way of delivering and receiving education. Industry collaborations for curriculum development, students’ training and placements establishing state-of-the-art research facilities, an outstanding pool of faculty with rich industry and academic experience.”

Sanjay Bansal
Chancellor, DBUU

“Over a long journey of 19+ years of pushing the boundaries of knowledge and innovation, we have built a unique place in Education industry with a focus on quality via up-to-date coursework and lectures teaching techniques backed by appropriate lab elements.”

Mr. Aman Bansal
Pro Chancellor, DBUU

“The present era of globalization reflects a shift in the vision from creation of a resource pool to a path of holistic development of the young minds. Dev Bhoomi Uttarakhand University is determined to embark on that path; to be in sync with the nation’s vision and global trends. It envisages a vision wherein academic excellence, innovation and holistic development are not mere letters but a way of life.”

Dr. Preeti Kothiyal
Vice Chancellor, DBUU

VISION

To foster a community of lifelong learners with ability of critical thinking, entrepreneurship, leadership and to create an environment for discovery, innovation, discourse & expression.

MISSION

- Setting a benchmark to improve performance and quality assurance in academics.
- Creating a thriving and sustainable research environment.
- Laying impetus on successful student support system so as to nurture creativity, resiliency & problem solving skills.
- Inculcate the spirit of सिद्धिर्भवति कर्मजा
- Devise and Design programs in consonance with national policies and global challenges.

Principal's Desk

It is with great pleasure that I introduce you to the vibrant and enlightening environment at Dev Bhoomi Medical College of Ayurveda and Hospital. Our students hail from diverse backgrounds, all united by a shared aspiration—to become world-class Ayurvedic professionals. The field of medicine has always been regarded as a noble service to society, akin to serving a divine purpose. At Dev Bhoomi Medical College of Ayurveda and Hospital, we firmly believe in the adage that your origins don't define you; it's what you can become that truly matters. With this ethos in mind, we envision our students serving humanity and offering their skilled assistance to society.

Medicine is a profession that demands precision, a quality that can only be attained through a disciplined life. To empower our students to realize their full potential, we place a strong emphasis on academic excellence. Our curriculum is regularly updated to align with the latest trends and research, and it is delivered by a highly acclaimed faculty with extensive academic and industry experience.

At DBGI, we nurture our students to meet the ever-expanding needs of society and instill in them the humility required for such a noble endeavor. I take immense pride in leading the college towards success and contributing, in my own small way, to the betterment of society. Our contributions extend beyond the growth of the institution; they are a catalyst for societal progress and development. After all, a healthy society begets a healthy nation. I am confident that our students will be well-prepared during their time at the institution and will emerge as successful professionals and business leaders, capable of meeting the evolving demands of the rapidly changing global business landscape.

I extend my heartfelt gratitude to you for taking the time to learn more about our institution. I invite you to visit and explore this culturally rich and dynamic institution under DBGI, committed to fostering learning and development with a profound sense of positive professionalism.

Dr. Amit Kumar
Principal, BAMS, MD

Program **OFFERED**

Approved by
NCISM

An Act to provide for a medical education system that improves access to quality, and affordable medical education, ensures availability of adequate and high. quality medical professionals of the Indian System of Medicine in all parts of the. country; that promotes equitable and universal healthcare that encourages.

Why to **STUDY**

Bachelor of Ayurvedic Medicine and Surgery (BAMS) is one of the most underrated courses across the globe. The lack of awareness among the students has resulted in a lesser number of students opting for this course. The hype due to the medical and dental courses has made students neglect this BAMS course. Ayurveda is one of the oldest and traditional forms of science from India and students are lacking information about this traditional form of medicine. It is high time to create awareness about this traditional and successful form of medicine in the student fraternity

DBMCAH is highly dedicated to impart quality Higher Education & Training in the field of BAMS and prepare Professionals globally.

These courses are accepted worldwide

They get a practical knowledge of the various processes involved in the field of Ayurveda

Students perform under the guidance of qualified Ayurvedic practitioners

Well-established modern laboratories

Advanced Classrooms and Learning Facilities

Effective Hospital Visits, Workshops and Guest Lectures

The students are helped in polishing their interpersonal skills and communicative skills which is a much-required quality for undertaking this program

The Ayurvedic system of medical care is based on the concept that the natural healing capacity of the body is being enhanced by Ayurvedic therapy. The Ayurvedic treatment includes reducing symptoms, eliminating impurities, reducing worry, increasing resistance to disease and increasing harmony in the patient's life.

The Ayurvedic system is a trustworthy medical system to the cure, prevent and rejuvenate. Yes, it takes more time to make the patient fit then before, but once the patient has been treated through this medical system, he will find him better than before he was.

Career OPPORTUNITIES

The physician who has acquired the six attainments viz., the knowledge of the science of medicine, critical scientific reasoning, deep insight in allied sciences, memory, promptness in action and perseverance seldom fails to achieve his objective (viz., the protection, promotion and preservation of the health in the healthy and the alleviation of disease in the afflicted).

He is entitled to the title 'Vaidya' who has any one or the other of the following:

- | Knowledge (of the science of medicine), intellect, keen interest in his work, success in practice (of medicine) and the guidance of a senior (an experienced physician).
- | One who possess (all) the aforesaid attainments deserves to be called the best Vaidya. He becomes the benefactor of humanity.
- | Science is light and it illuminates. One's own intellect is vision. One who applies both (science and intellect) seldom errs.

A Bachelor of Ayurvedic Medicine and Surgery (BAMS) degree from Dev Bhoomi Medical College of Ayurveda and Hospital opens up a wide range of career opportunities in the field of Ayurveda. Graduates can practice as Ayurvedic doctors in hospitals, clinics, and health centers. They can also work in government and private institutions, research centers, and health departments.

Ayurvedic Doctors after BAMS can open clinics can also further go for M.D / M.S of Ayurveda
